

Dear Leather Members,

Summer is officially here in the SCW with temps threatening to be as high as 120F or even higher! So, if you need to cool down come to the Leather Club. The club is open till 8:30PM, as long as we have a monitor. Many evenings we are there until 7PM and have enjoyed the extended open hours and the cooler temps, so come on down!

Fall Craft Fair:

- Now is a good time to prepare for the upcoming November craft fair. There's plenty of elbow room in the club, so you can spread out your projects. So now is a good time to take advantage of this.

Room Remodel:

- The Recreation Center has provided the club (at no cost to us) 5 old, but much sturdier, tables. They are being used to support the cutting table, as a layout table and to provide a couple of extra work spaces. However, we need to add some granite slabs.
- There has been no progress regarding our proposed room changes in order to make the club a little more noise friendly.
- The stored Westnaire's music can't be moved until the Rec Center takes action. All clubs involved are in favor of the changes. Some proposals have been suggested regarding the storing of the music but none has been acceptable to Rec Center Management so far.

Tandy:

- Tandy has introduced a new promotional program called "First Responders". This new appreciation program is free to qualifying participants, so if you qualify, go to the Tandy web site and check it out. Information is also posted on the club bulletin board. I believe it is for current or active First Responders and offers an "elite" pricing so check it out for family members.

Monitoring:

- ***For those of you remaining in SCW this summer, we still need you to sign up on the calendar to monitor! Thank you!

We hope this newsletter finds you all well and enjoying your summer both here and away.
