

## 2018 LC September Newsletter

Hi Everyone,

We hope this newsletter finds you all well. We have some great plans for the upcoming year and are looking forward to the return of those of you who are away. However, if you're here....

The SCW temps are still high! So, if you need to cool down come to the Leather Club which is open until 8:30PM, as long as we have a monitor. Many evenings we are there until 7PM and have enjoyed the extended open hours and the cooler temps, so come on down!

### Open House:

**Friday, September 28th from 1pm to 4pm.** We'd like as many members as possible to attend in order to answer visitor questions, show off the great new look of the club, and demonstrate tooling skills as well as projects completed or in progress. If you have a "special" project, please bring it for display.

- There will also be **door prizes and drawings** for our guests and SCW's **Red Hot Clowns** will be assisting in our festivities. If you would be willing to donate one of your handmade leather items for the raffle, that too would be greatly appreciated. Just let Julee know.
- We would like to provide refreshments. Any help providing these would be greatly appreciated. We were thinking cookies, bars, veggie trays, etc. would be nice. If you can help in this area, please let Julee know no later than **Friday, September 21st.**
- We are planning to invite those persons responsible for and directly involved in the club remodel. We thought it would be a nice way to show our appreciation for all their time and hard work.
- Please feel free to invite your friends or anyone whom you think might be interested in the club.

We hope to make this a very fun event, so please attend. The new club layout is awesome and we are extremely thankful for everyone's hard work as well as patience during these past summer projects.

We are also grateful for the vision, tenacity, and hard work of our board members, who worked tirelessly to see this project come to fruition. They have truly done a wonderful job!

### **New member Class:**

Class will be held **Saturday, October 6th from 9 - 3 pm.**

We changed these classes to a full day in order to alleviate as many scheduling conflicts as possible for both instructors and attendees. Also, Saturdays provide fewer disruptions for members.

### **Monitoring:**

As you all know, monitoring is a requirement in every club.

During the summer months it is particularly difficult to obtain monitors as there are fewer members present. With so many members gone, many of the same people end up monitoring repeatedly. So if you can, please help out.

### **Fall Craft Fair:**

Now is a good time to prepare for the upcoming **November craft fair, the first Saturday in November.** Please plan now to have your items ready. Presently there's plenty of elbow room in the club, so you can spread out. Now is a very good time to take advantage of this. (Since summer is usually slow, you can even monitor and work on your projects with little, if any, disruptions!

Enjoy the rest of the summer. We look forward to everyone's' return and wish you safe travels.
